1) Your infant may not need this dose depending on the type of vaccine that your health care provider uses. (2) This dose of DTaP may be given as early as age 12 months if it has been 6 months since the previous dose.

What is "Catch-up?": If your child's vaccinations are overdue or missing, get your child caught up as soon as possible. If your child has not completed a series of vaccinations on time, he or she will need only the remainder of the vaccinations in the series. There is no need to start over.

Please Remember: Child's up-to-date shot record and insurance card is required at time of service.

- The Health Department participates in the federally-funded "Vaccines For Children" (VFC) program.
 - For VFC vaccine there is a \$28 charge and then \$15 for each additional dose of vaccine
 - There is no charge if unable to pay.
 - Medicaid and Medicaid Managed Care are accepted. Most private insurance companies billed.
 - Children must be accompanied by a parent/legal guardian or another adult with written permission from the parent.
 - Adult vaccine available: Tetanus, Tdap and Seasonal Flu. Other adult vaccine if pre-arranged (costs will vary by vaccine).
 - *Neighborhood Clinics are funded by local tax levy dollars.*
