

What do you want to do after graduation?

CollegeNOW Engineering

Provided in partnership with NC State College, earn a hs diploma along with an Associate Degree in Engineering Technology. All classes are held at the Kehoe Learning Center in Shelby. Visit College-NOW online at www.college-now.org to learn more about this exciting program.

CollegeNOW Engineering Careers:

On top of an Associates Degree:
Mechanical Engineering
Electrical Engineering

Engineering Design Technologies

Utilize engineering design technology along with your own creativity in many situations while being introduced to mechanical, electrical, architectural and industrial engineering. A teamwork approach to problem solving is emphasized in this program.

Engineering Design Technology Careers:

Detail Drafter
Mechanical Drafter
Architectural Drafter
CMM Operator

Industrial Electricity

Earn a variety of industrial electrical and robotic skills as well as leadership skills needed in today's workforce. You will train on the same equipment as local business and industry professionals.

Industrial Electricity Careers:

Electrical Apprenticeship
Industrial Facilities
Industrial Technician

You can visit us online and apply at:
PioneerCTC.edu

Precision Machining Technologies

Gain the knowledge and skills needed to apply today's technology to the cutting and forming of materials to make parts for industrial production. You will learn design, machining and set-up techniques used in the rewarding field of manufacturing.

Precision Maching Careers:

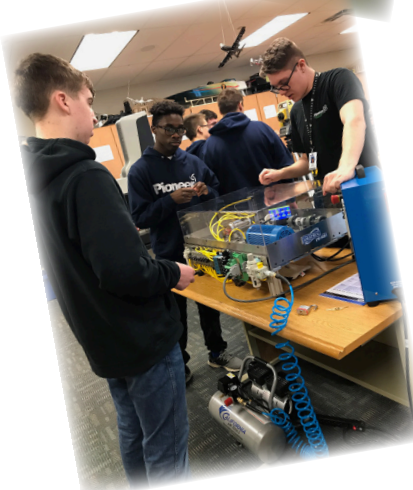

Machine Operator Heat Treat Technician
Machine/Tool Room Supply & Salesperson
Set-up Technician
Apprentice - Precision Machinist, Tool and Die Maker, Sheet Metal, Mold Maker
Machine Repair & Maintenance
Entrepreneurship

Welding

Learn many aspects of welding technology with hands-on lab experiences and have the opportunity to earn industry certifications including Arc, MIG, TIG and Gas Welding. Students also study business management as it relates to this field.

Welding Careers:

Combination Welder, Fitter or Flame Cutting Operator
Sheet Metal Apprentice
Industrial & Construction Welder
Entrepreneurship
